Smart KYC & onboarding, in one conversation.

ONBO verifies your customer in a real-time, voice-guided conversation — in their own language, on their phone. One API call from your app.

Conversational
Voice & text, local languages

Real-time
Govt rails and credit bureaus

1 API call
REST, SDK, or two-line widget

In-perimeter
Runs in your cloud, PII stays with you

01 · WHAT IT DOES

Three jobs, one journey

01

Verify by chat
Voice- and text-guided KYC in the local language. The customer talks; ONBO listens, verifies, moves on.

02

Decide in real time
Face, document, identity and credit checks run live against government rails and credit bureaus.

03

Plug in anywhere
Call ONBO from your app, website, WhatsApp flow or IVR — through one REST API, SDK or widget.

02 · WHO IT'S FOR

Built for teams that onboard customers

Banks & NBFCs
Account opening and lending KYC

Fintech & neobanks
Mobile-first onboarding at scale

Insurance
Policy issuance with identity + risk

Telecom & utilities
Subscriber KYC across markets

03 · HOW IT WORKS

Live in six steps

1. **Consent** — Informed & recorded
2. **Country + OTP** — Local rules applied
3. **Face scan** — Live, with liveness
4. **Documents** — OCR + authenticity
5. **Identity** — Rails + bureau, live
6. **Eligibility** — Live offers

04 · BEFORE & AFTER

Why teams switch

WITHOUT ONBO	WITH ONBO
Documents couriered, days of back-and-forth	Verified in a single live session
English-only forms, silent exclusion	Local-language voice + text
Static photo upload, easily spoofed	Live face capture with liveness
Verified customer, offers come later	Pre-approved offers in the same session
PII shipped to a vendor cloud	Runs inside your VPC
